Post Show Report

Introduction

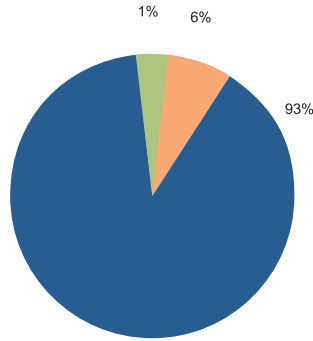

The 12th International EverythingAboutWater Expo 2015 took place at the Bombay Exhibition Centre, Mumbai on 21, 22 and 23 of May. The Expo was a perfect gateway for stakeholders from across the globe to penetrate into the vast and dynamic ecosystem of the Indian water industry to share business opportunities, network and explore innovative water solutions.

12th EverythingAboutWater Expo offered unparalleled business opportunities to both national as well as international players from the water industry to learn and explore the future trend of the Indian water market.

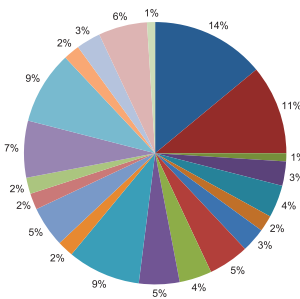

A Unique and comprehensive annual water event showcased latest technologies in the water and wastewater management sector, it is recognized as South Asia's largest water event.

Expo Statistics

Exhibitors	229
Delegates	943
Business Visitors	15714

Visitors Profile

- Water treatment OEM's and System Integrators
- Wastewater Treatment OEM's and System Integrators
- Textile
- Sugar
- Refineries
- Pulp & Paper
- Power Plants
- Pharmaceutical
- Leather & Tanneries
- Hotels & Hospitals
- Government

- Food & Beverage
- Electronics
- Consulents
- Cement
- Automobile
- International
- Embassies & Trade Consultants
- Education & Research Institute
- Component Manufacturers
- Others

One-2-One Meetings

With prearranged meetings, exhibitors and visitors made the most of their participation.

Dr. H₂O Pavilion

Aiming to serve the knowledge needs of visitors, it was a great hit with 15 water experts providing consultancy.

Product Launch Zone

At this powerful platform - 14 global manufacturers displayed their new product ranges.

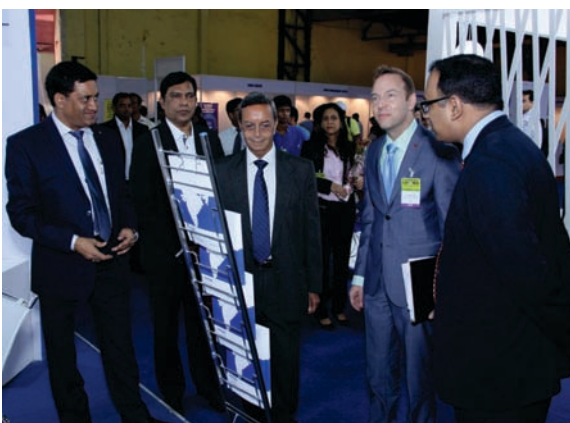

EA Water Forum

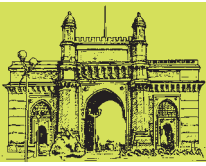

Exhibitors made open presentations to all visitors in 5 sessions daily - on varied topics of water & wastewater management.

Water Library

Water Library

A display of information bank on all water related topics attracted high visitor footfall.

Conferences & Training Program

The 12th EverythingAboutWater Conferences & Training Programs brought the best of the experts on all three days, trainers and delegates under one roof.

Studded with the best of speakers and experts in water management from around the world, the conference & training programs saw key experts followed by trainers and delegates from the Government and Public Health Departments, system

integrators and OEMs, senior operation and project managers from Industries, Consultants and Contractors etc.

Participants attending the sessions not only gained knowledge on technological developments but also had the opportunity to network with experts.

- David Akov – Consul General of Israel
- Dr. P.K. Tewari – Bhabha Atomic Research Centre
- Dr. Y. B. Sontakke – Joint Director (Water Pollution Control)
- Brad Alpik – Aqualyng Global
- Gary Brown – Becon Watertech – Tecroveer Holdings
- Andrew Wedgner – Borouge Pte Ltd, Abu Dhabi
- Herman De Schampelaere – Aquaplus NV
- Prof. Anatoli Hurynovich – Belarusian Nation Technical University, MAMT JV (Belarus), Belostok Technical University (Poland)
- Rajan Golapkar – Maharashtra Jeevan Pradhikaran
- Subhash B. Bhujbal – Maharashtra Jeevan Pradhikaran
- Keith Turner – Royal Haskoning DHV
- Anil Pillai – Director R & D and BD HPPI Pvt Ltd
- Aditya Bhat – HNB Engineers Pvt. Ltd.
- Dharmendra Raval – GS Inima Environment SA
- Dr. R N Sankhua – Director, Basin Planning, CWC
- Sanjay Deshpande – Executive Director, Clearford India Pvt. Ltd.
- Sunil Patkar – Renowned Chemical Engineer
- Dr. S. Sundaramoorthy – Well known leader in the field of wastewater ZLD Projects

Panel Discussion on Zero Liquid Discharge

Eminent Panelist (L-R) - Ken Pandya, Dr. Thippeswamy, Dr. Uday Kelkar, A Vidyavathsal, Nimesh Vashi

Testimonials

This expo is bigger but it will be much bigger in coming years

Chen Jun

Zhejiang Creation Environment Tech.

Scale of an EXPO should be like this

Chi

Ningbo Huawo International

An excellent platform to grow your business, keep it up

Harjeet Kaur

Trade Promotion Officer - TAITRA

Facilities and services provided very good

Subodh Nandod

HNB Engg. (PCMC)

Keep the good work going

Behm Thomas

Southern Carbon & Chemicals

Well organized event, appreciate the value added services

Yasmine Dubash

Trade Commissioner, Canada

We will surely be a part of the next year event

Bhavari Upadhaya

Waterloop Oxive

Best place to get quality business leads and visitors

Ashok Srivastava

Napier Reid

India set to become water scarce by 2025: report

...तो 10 साल में पानी को तरसेगा भारत

करीब पाँचों पाँचों देशों के पानी की 'प्रैक्टिस' में उल्लेख है कि वह नही है।

WATER HELD TO BE EXPLO AT GOREGAON

Mumbai: EA Water Pvt. Ltd. with the support of BMC is organizing the 13th Evergreen-Goregaon Water Expo to showcase the opportunities for water conservation and recycling. The expo will be held from May 21 to May 23 at Goregaon Sports Club, Mumbai. The expo is a part of the EA Water's 'Water for All' campaign, which aims to provide clean drinking water to all citizens of Mumbai.

Wastewater Treatment

Water is a precious resource and its conservation is essential for the future of the planet. Wastewater treatment is a key component of water conservation and recycling. The EA Water is committed to providing clean drinking water to all citizens of Mumbai and is investing in wastewater treatment technology to ensure that water is recycled and reused.

दस साल में पानी के लिए तरसेगा भारत

मुंबई, 10 मई: पानी की कमी से देश में बढ़ती है आबादी और जल संकट का कारण है। हालांकि देश में जल संकट का कारण है। पानी की कमी से देश में बढ़ती है आबादी और जल संकट का कारण है।

India set to become water scarce by 2025: Report

Although India is set to become water scarce country by 2025 due to demand-supply mismatch, the water sector is expected to see investment of \$13 billion from overseas players in the next few years, a new study has said.

With increasing household income and increasing contributions from the service and industrial sectors, the water demand in the domestic and industrial sectors is increasing substantially, says a study conducted by EA Water, a leading consulting firm in water sector.

Nearly 70 per cent of country's irrigation and 80 per cent of domestic water comes from groundwater, which is rapidly depleting.

The industrial market is going to be the big opportunity in 2025, with growth in wastewater recycling and industrial water treatment, the report said.

Maharashtra is emerging as a hub for the water sector.

India to be water scarce by 2025, says report
